

LOUISIANA BIRD RECORDS COMMITTEE

REPORT FORM

English and Scientific names: Brown-crested Flycatcher, *Myiarchus tyrannulus*. One, age and sex unknown; in Morel's Woods, Triumph, Louisiana, Dec. 21, 2023. During Venice CBC.

Reporting observer and city/state address

David P. Muth
2765 Orchid St.
New Orleans, LA 70119
muthdp@gmail.com

Other observer(s) with: Beaux Jones, Chloe St. Germain-Vermillion, Bonnie Slaton, John Nelson

Original Observer: Jack Rogers, Dec. 7, 2023

My record: <https://ebird.org/checklist/S156861487>

Details: Not seen, but heard calling frequently at the same location in the woods where Jack Rogers recorded it on Dec. 7, 2023.

Voice: A loud sharp "wheep" given several times and coming from woods across bayou bed; I estimate the distance at about 50 yards. Attempts to pull it closer with playback were unsuccessful.

Discussion: Without a visual confirmation, this observation cannot stand alone, but I report it in case there were other post- Dec. 7 records and it falls into a pattern.

Media: Swarovski NL 12x42 binoculars

Date of report: March 3, 2024
