

# LOUISIANA BIRD RECORDS COMMITTEE

## REPORT FORM

This form is intended as a convenience in reporting observations of species on the Louisiana Bird Records Committee (LBRC) Review List. The LBRC recommends the use of this form or a similar format when submitting records for review to assure that all pertinent information is accounted for. Attach additional pages or files as necessary. Please print or type for hard copy. For electronic copy, be sure to save this file to your computer before entering text. Attach field notes, drawings, photographs, or tape recordings, if available. Include all photos for more obscurely marked species. When completed (if hard copy), mail to Secretary, Louisiana Bird Records Committee, c/o Museum of Natural Science, 119 Foster Hall, Louisiana State University, Baton Rouge, LA 70803-3216, or e-mail electronic copy as an attachment to Paul Edward Conover at <[zoiseaux@lusfiber.net](mailto:zoiseaux@lusfiber.net)> .

1. English and Scientific names: Couch's Kingbird *Tyrannus couchii*
2. Number of individuals, sexes, ages, general plumage (e.g., 2 in alternate plumage): one
3. Parish: Cameron  
Specific Locality: At beginning of loop near work sheds
4. Date(s) when observed: 8/Jan/2010
5. Time(s) of day when observed: 9:00 am
6. Reporting observer and city/state address

Reporting observer: Michael Musumeche
City: New Iberia
State: LA
7. Other observers accompanying reporter who also *identified* the bird(s): none
8. Other observers who independently identified the bird(s): Charlotte Chethotsky
9. Light conditions (position of bird in relation to shade and to direction and amount of light): clear, from rear
10. Optical equipment (type, power, condition): Swa. 10x42
11. Distance to bird(s): 10-30 feet
12. Duration of observation: 7 minutes
13. Habitat: edge effect

14. Behavior of bird / circumstances of observation (flying, feeding, resting; include and stress habits used in identification; relate events surrounding observation): flying about, feeding on flying insects, it seemed

15. Description (include only what was actually seen, *not what "should" have been seen*; include if possible: total length/relative size compared to other familiar species; body bulk, shape, proportions; bill, eye, leg, and plumage characteristics. Stress features that separate it from similar species, *or for species that are known to hybridize frequently, stress features that help eliminate possible hybrids*):

**Kingbird with bright yellow breast stopping just below the neck, white throat, greenish back, gray head with dark area through eye. When playback was used, bird immediately flew to a nearby shrub. Bird began singing in response to playback; used for a very short time.**

16. Voice: see statement above

17. Similar species (include how they were eliminated by your observation): Tropical Kingbird. Eliminated by voice.

18. Photographs or tape recordings obtained? (by whom? attached?): yes, see # 6 above

19. Previous experience with this species: seen periodically in winter in south Louisiana

20. Identification aids: (list books, illustrations, other birders, etc. used in identification):  
none

a. at time of observation: none

b. after observation: Sibley

21. This description is written from:

<input type="checkbox"/>	notes made during the observation.	Are notes attached?	<input type="checkbox"/>
<input type="checkbox"/>	notes made after the observation.	At what date?	<input type="checkbox"/>
<input checked="" type="checkbox"/>	memory		
<input type="checkbox"/>	study of images		

22. Are you positive of your identification? If not, explain: yes

23. Date: 9/Jan/2020

Time: 10:30 am

24. May the LBRC have permission to display in whole or in part this report and accompanying photos on the LOS-LBRC website and LBRC Facebook page?

\_\_\_\_\_yes\_\_\_\_\_

If yes, may we include your name with the report? \_\_\_\_\_yes\_\_\_\_\_
