Dear Mr. and Mrs. Heath,

Here are the three slides of the Lesser Black-backed Gull taken on October 28th at Rutherford beach. In one slide, he is sitting, in another, he is standing with his left foot curled up, and in the last slide, he is flying. You may duplicate these slides if you wish.

I suppose you heard about the other Lesser Black-backed Gull seen the same day at the jetties. So there were at least 3, maybe 4 of them.

Hope these slides help you out. If I can be of any further assistance, please let me know.

Sincerely,

Don R. Simons
