

# LOUISIANA BIRD RECORDS COMMITTEE

## REPORT FORM

This form is intended as a convenience in reporting observations of species on the Louisiana Bird Records Committee (LBRC) Review List. The LBRC recommends the use of this form or a similar format when submitting records for review to assure that all pertinent information is accounted for. Attach additional pages or files as necessary. Please print or type for hard copy. For electronic copy, be sure to save this file to your computer before entering text. Attach field notes, drawings, photographs, or tape recordings, if available. Include all photos for more obscurely marked species. When completed (if hard copy), mail to Secretary, Louisiana Bird Records Committee, c/o Museum of Natural Science, 119 Foster Hall, Louisiana State University, Baton Rouge, LA 70803-3216, or e-mail electronic copy as an attachment to Paul Edward Conover at <[zoiseaux@lusfiber.net](mailto:zoiseaux@lusfiber.net)> .

1. English and Scientific names: **Limpkin – *Aramus guarauna***
2. Number of individuals, sexes, ages, general plumage (e.g., 2 in alternate plumage):  
**one, adult**
3. Parish: Terrebonne  
Specific Locality: **Hollywood Road**
4. Date(s) when observed: **2/Feb/2018**
5. Time(s) of day when observed: **2:20 pm**
6. Reporting observer and address: **Michael Musumeche, 1621 Southwood Dr., New Iberia, LA 70560**
7. Other observers accompanying reporter who also *identified* the bird(s): **David Booth**
8. Other observers who *independently identified* the bird(s): **many birders**
9. Light conditions (position of bird in relation to shade and to direction and amount of light): **excellent, from behind observers.**
10. Optical equipment (type, power, condition): **10x40 Swarovski**
11. Distance to bird(s): **10'-30'**
12. Duration of observation: **25 minutes**
13. Habitat: **marshy/swampy**

14. Behavior of bird / circumstances of observation (flying, feeding, resting; include and stress habits used in identification; relate events surrounding observation): **actively feeding/calling**

15. Description (include only what was actually seen, *not what "should" have been seen*; include if possible: total length/relative size compared to other familiar species; body bulk, shape, proportions; bill, eye, leg, and plumage characteristics. Stress features that separate it from similar species, *or for species that are known to hybridize frequently, stress features that help eliminate possible hybrids*): **Large wading bird with long yellowish beak, head and neck finely streaked, remainder of body brown with white pointed spots, brown tail, long, dark legs.**

16. Voice: **high pitched scream**

17. Similar species (include how they were eliminated by your observation): **juv. night-heron, Am. Bittern. Differences ... beak shape, call, basic plumage coloration.**

18. Photographs or tape recordings obtained? (by whom? attached?): **yes, #6 above**

19. Previous experience with this species: **much, in south Florida**

20. Identification aids: (list books, illustrations, other birders, etc. used in identification): **none**

a. at time of observation: none

b. after observation: none

21. This description is written from:

<input type="checkbox"/>	notes made during the observation.	Are notes attached?	<input type="checkbox"/>
<input type="checkbox"/>	notes made after the observation.	At what date?	<input type="checkbox"/>
<input checked="" type="checkbox"/>	memory		
<input type="checkbox"/>	study of images		

22. Are you positive of your identification? If not, explain: **yes**

23. Date: **3/Feb/2018**

Time: **6:20 am**

24. May the LBRC have permission to display in whole or in part this report and accompanying photos on the LOS-LBRC website and LBRC Facebook page?

\_\_\_\_\_ **yes** \_\_\_\_\_

If yes, may we include your name with the report? \_\_\_\_\_ **yes** \_\_\_\_\_
