

## LOUISIANA BIRD RECORDS COMMITTEE

### REPORT FORM

This form is intended as a convenience in reporting observations of species on the Louisiana Bird Records Committee (LBRC) Review List. The LBRC recommends the use of this form or a similar format when submitting records for review to assure that all pertinent information is accounted for. Attach additional pages or files as necessary. Please print or type for hard copy. For electronic copy, be sure to save this file to your computer before entering text. Attach field notes, drawings, photographs, or tape recordings, if available. Include all photos for more obscurely marked species. When completed (if hard copy), mail to Secretary, Louisiana Bird Records Committee, c/o Museum of Natural Science, 119 Foster Hall, Louisiana State University, Baton Rouge, LA 70803-3216, or e-mail electronic copy as an attachment to Paul Edward Conover at <[zoiseaux@lusfiber.net](mailto:zoiseaux@lusfiber.net)> .

1. English and Scientific names: Yellow-green Vireo (*Vireo flavoviridis*)
2. Number of individuals, sexes, ages, general plumage (e.g., 2 in alternate plumage):  
1 after-second year individual of unknown sex.
3. Parish: Cameron  
Specific Locality: Grand Chenier
4. Date(s) when observed: 4/13/19
5. Time(s) of day when observed: 11:42-11:45 am

6. Reporting observer and city/state address

Reporting observer: University of Southern Mississippi Migratory Bird Research Group
City: Hattiesburg
State: MS

7. Other observers accompanying reporter who also *identified* the bird(s):  
Julie Shieldcastle, Ivy Ciaburri, Mary Caffrey,
8. Other observers who independently identified the bird(s):  
T.J. Zenzal
9. Light conditions (position of bird in relation to shade and to direction and amount of light): Bird in hand
10. Optical equipment (type, power, condition): Eyes
11. Distance to bird(s): 0 meters
12. Duration of observation: ~5 mins

13. Habitat: Chenier

14. Behavior of bird / circumstances of observation (flying, feeding, resting; include and stress habits used in identification; relate events surrounding observation): Captured bird via mist net

15. Description (include only what was actually seen, *not what "should" have been seen*; include if possible: total length/relative size compared to other familiar species; body bulk, shape, proportions; bill, eye, leg, and plumage characteristics. Stress features that separate it from similar species, *or for species that are known to hybridize frequently, stress features that help eliminate possible hybrids*): See pictures. Wing chord: 71 mm, mass: 14.8g.

16. Voice: N/A

17. Similar species (include how they were eliminated by your observation): Overall plumage brighter yellow and green compared to Red-eyed Vireo

18. Photographs or tape recordings obtained? (by whom? attached?): attached photos by Julie Shieldcastle

19. Previous experience with this species: T.J. Zenzal previously captured

20. Identification aids: (list books, illustrations, other birders, etc. used in identification):

a. at time of observation: Sibley and Pyle guide to banding

b. after observation: T.J. Zenzal

21. This description is written from:

<input checked="" type="checkbox"/>	notes made during the observation.	Are notes attached?	No
<input type="checkbox"/>	notes made after the observation.	At what date?	
<input type="checkbox"/>	memory		
<input type="checkbox"/>	study of images		

22. Are you positive of your identification? If not, explain: Yes, positive.

23. Date: 5/23/19

Time: 4:32pm

24. May the LBRC have permission to display in whole or in part this report and accompanying photos on the LOS-LBRC website and LBRC Facebook page?

\_\_\_\_\_ No \_\_\_\_\_

If yes, may we include your name with the report? \_\_\_\_\_ No \_\_\_\_\_
